INTEGRATED BUSINESS EXPERIENCE

During Blocks 2 and 3, students work in teams to start and run a company, implementing the skills and knowledge developed through their courses. During this one semester, students form a company, negotiate startup loans to bank loan officers, sell their product, donate all profit to a local charity, and close their business. Students conclude the Fall semester with the IBE Showcase, where they highlight their business models and share their experiences and accomplishments. In the first two years, students earned approximately $25,000 in profit.
