ACADEMIC EXPERIENCE

2001 to present: Texas A&M University

Associate Dean for Graduate Programs, December 2021 to present

Interim Head, Adam C. Sinn '00 Department of Finance, June 2023 to present

Professor, July 2021 to present

Executive Vice President and Chief Financial Officer, 2014 to 2021

Dean (Mays Business School) and Development Council Chair in Business and Professor of Accounting, 2001 to 2007, 2008 to 2014

Interim Executive Vice President and Provost, 2007 to 2008

Leland/Weinke Chair in Accounting, 2001 to 2007; KPMG, LLP Chair in Accounting, 2007 to present

1990 to 2001: University of Houston

Interim Dean, 1999 to 2001

Professor and Arthur Andersen & Co. Alumni Professor of Accounting & Taxation, 1997 to 2001

Associate Dean for Academic and Research Programs, 1995 to 1999

Associate Professor, 1990 to 1997

1985 to 1990: Louisiana State University

Arthur Andersen & Co. Research Fellow, 1989 to 1990

Assistant Professor, 1985 to 1990

1984 to 1985:

Texas A&M University (Teaching Assistant and Lecturer)

Courses taught (past 5 years): Principles of Financial Accounting (undergraduate Business Honors) (Fall 2004 to present), Corporate Governance (Executive MBA) (Spring 2003 to present).

Other Courses taught include Principles of Financial Accounting (undergraduate, Executive MBA), Financial Statement Analysis (MBA, Executive MBA), Principles of Managerial Accounting (undergraduate), Intermediate Accounting I (undergraduate), Intermediate Accounting II (undergraduate), Auditing (undergraduate, masters, doctoral), Financial Accounting Research (doctoral), and Research Methodology (doctoral).

PROFESSIONAL EXPERIENCE AND CERTIFICATION

Completed Hudson Institute of Coaching Program, 2021

Staff Accountant (Faculty Resident), Arthur Andersen & Co, Houston, TX (June 1990 to August 1990)

Staff Accountant (Intern), Deloitte, Haskins & Sells, Houston, TX (January 1982 to May 1982)

Certified Public Accountant (Texas), 1985

EDUCATION

Ph.D., Texas A & M University, 1985 (Major Area: Accounting)

M.S., Texas A & M University, 1984 (Major Area: Accounting)

B.B.A, Texas A & M University, 1983 (Major Area: Accounting)

ADMINISTRATIVE ACHIEVEMENTS

Achievements occurring during any individual's tenure in an administrative appointment necessarily represent the collected efforts of a large number of individuals, academic units, and administrative units.

Associate Dean for Graduate Programs, Mays Business School (January 2022 to present)

Ongoing responsibilities include oversight over Mays Business School's graduate programs, which include three MBA programs (Full-time MBA, Professional MBA, and Executive MBA); two college-wide masters programs (MS Business and MS Analytics); and, nine departmental masters programs (MS Accounting, MS Entrepreneurial Leadership, MS Finance, MS Financial Management, MS Human Resource Management, MS Management Information Systems, MS Marketing, MS Real Estate, and MS Supply Chain). Combined, these programs have total enrollments of approximately 1,400 students. The graduate programs office overseeing these programs has 35 employees and an operating budget of over \$11 million.

- Finalized development of joint MBA/MS Analytics program, which provides a STEM option for students and results in the receipt of these two degrees in a two-year period. In this process, modified implementation of the program to focus on highly qualified international candidates whose placement will enhance our FT MBA program rankings, rather than increasing the size of the international student population (as originally designed).
- Restructured Career Management Center services to more extensively utilize contracted coaches for specialty programs rather than full-time coaches.
- Increased engagement of Career Management Services with departmental MS program directors to ensure quality career management services are being provided and sufficient data on career outcomes are being gathered for internal monitoring and evaluation purposes.
- Developed data template for all MS and MBA programs to evaluate information on incoming student characteristics (academic qualifications, work experience, background, demographics) and program outcomes (career placements). These data are used in preparing an annual report distributed internally to faculty and staff.

Executive Vice President of Finance and Operations and Chief Financial Officer, Texas A&M University (September 2014 to June 2021)

Ongoing responsibilities include: (1) oversight of \$2.0 billion university budget; (2) development of financing plan construction, renovation, and maintenance of university facilities (currently over 800 buildings, 25 million gross square feet, \$5 billion replacement value, and \$1.2 billion of construction and renovation); (3) development of strategic plan, case statement, and supporting materials for university tuition and fee increases; (4) preparation and presentation of briefing materials and strategic budget requests during biennial legislative sessions; (5) evaluation, negotiation, and oversight of University contracts (athletics apparel, outsourced custodial/landscape/maintenance, dining, stadium concessions, stadium technology, multimedia rights, and university hotel/conference center); (6) oversight of outsourcing arrangements for landscape,

maintenance, custodial (SSC Services for Education) and dining (Chartwells); and, (7) working with President and Executive Vice President and Provost to identify funding for strategic university priorities.

Units within the Division of Finance and Operations include Budget and Planning, Building Access, Contract Administration, Department Accounting Services, Emergency Management, Environmental Health and Safety, Facilities and Dining Administration, Financial Management Operations, Logistics Services, Mapping and Space Information, Payroll, Procurement Services, Safety and Security, Student Business Services, Sustainability, Transportation Services, University Architect, University Police Department, and Utilities and Energy Services. (Human Resources and Organizational Effectiveness, Open Records, Presidential Conference Center, Technology Transfer, University Information Technology, and University Risk and Compliance have also been under the Division of Finance and Operations during my tenure). The Division currently has over 900 employees and a budget of \$143 million.

- Served as member of various university leadership teams to execute strategies for university operations in response to COVID-19.
 - Developed policies and created process to provide student refunds for unused housing, dining, and parking services in Spring 2020.
 - Implemented significant facility enhancements (protective equipment, improved ventilation/filtration, enhanced cleaning services) to permit face-to-face instruction in Fall 2020.
 - Identified and renovated non-traditional space on campus to serve as temporary classroom space in Fall 2020 to increase extent of face-to-face instruction while observing appropriate social distancing.
 - Developed plan for deploying \$37.4 million in CARES Act funding to provide emergency funding to students, increase student enrollment and retention, improve remote delivery of courses, and ensure a safe physical environment for faculty, staff, and students.
 - Coordinated university communication efforts to faculty, staff, and students regarding facility enhancements and safety measures implemented prior to return to face-to-face instruction in Fall 2020.
 - Developed contingency plans for operations for various scenarios of outbreaks of COVID-19 in Fall 2020.
- Completed merger and integration of professional staff within the Divisions of Finance and Administration, which had previously existed as two separate divisions organized under two Vice Presidents.
- Completed integration of Texas A&M University Health Science Center operations in various areas of service (financial operations, business services, facilities, utilities and energy services, security, environmental health and safety, emergency management, and building access).
- Implemented a number of shared services agreements with universities across the Texas A&M University System (accounts payable, travel management, vendor setup and maintenance, iPayment system, account reconciliations, payroll services, and payment card compliance).
- Developed a series of strategic priorities for the Division and created departmental metrics to assess unit performance. These metrics served as an integral component of the Division's annual reports (created under my tenure) to communicate value and demonstrate accountability to the University community.
- Developed Division-wide diversity plan to enhance the climate, diversity, and equity within the Division. This plan has five major principles: (1) broadening the pool of applicants and enhancing internal opportunities; (2) increasing education and awareness; (3) increasing accountability of members of the leadership team; (4) evaluating outcomes for equitable treatment; and, (5) creating staff affinity groups.

As a central part of this plan, the leadership team within the Division of Finance & Operations completed the University's "Diversity and Inclusion in the Workplace" certificate program and has committed to ongoing continuing education standards related to diversity and workplace climate.

- Created an "Emerging Leaders Academy" targeted to high-potential, non-managerial employees within the Division. The Academy consists of: (1) 38 hours of instruction (both live and online) in diversity and inclusion, communication, leadership, ethics, conflict resolution, and stress management; (2) panels involving Texas A&M University leadership; and, (3) rotations to expose participants to the various units within the Division of Finance and Operations.
- Created Continuous Improvement Teams (involving both Division leadership and front-line staff) to provide recommendations for enhancing the on-boarding of new employees in the Division, professional and personal development for high potential employees within the Division, and the climate and diversity within the Division.
- Increased involvement of Division staff and operations in student learning experiences (through classroom instruction, class projects, mentoring, engagement with student organizations, internships, and professional employment opportunities) and faculty and graduate student research efforts.
- In partnership with Provost's office, developed new model for revenue sharing that provides colleges with incentives to increase student retention, SCH generated by online degree programs, and summer enrollments (in excess of normal fall and spring enrollments) and began implementing RCM models through requiring consideration and funding sources for increased operating costs resulting from new or expanded facility requests.
- Created (and serve as Chair) of the University's Sustainability Advisory Group, which involves administrators, faculty, staff, and students in developing a common vision and goals for campus sustainability efforts. Two outcomes of this effort were the receipt of "Gold" designation from AASHE for Texas A&M University's campus sustainability efforts and a refresh of our Campus Sustainability Master Plan.
- Involved in the financing, development, and operations of the following Texas A&M University/System real estate development projects:
 - 252 room on-campus hotel and conference center (total cost of \$134 million).
 - 1,200 bed campus apartment complex (the initial Public-Private Partnership for on-campus construction at Texas A&M University) (total cost of \$109 million).
 - 3,400 bed off-campus residential facility (total cost of \$368 million)
 - Mixed-use off-campus development which includes 200,000 square feet of shopping, dining, and entertainment space; two hotels (300 rooms); an office building; and, a mid-rise apartment complex (total cost of \$200 million).
- Developed and monitor compliance and performance for formal agreements with the four major fundraising entities affiliated with Texas A&M University (12th Man Foundation, Association of Former Students, Corps of Cadets Association, and Texas A&M Foundation).

Dean, Mays Business School, Texas A&M University (July 2001 to June 2007; August 2008 to September 2014)

Academic leader of college with enrollment of over 5,500 students in undergraduate, masters, MBA (Full-Time, Executive, and Professional), and doctoral programs. Upon my departure, Mays Business School had an operating budget of \$55 million, an endowment of \$106 million, 146 full-time faculty, 115 full-time staff, and enrollment of over 6,000 students (4,859 undergraduates, 1,072 masters, and 70 doctoral).

Fundraising and External Relations:

- Raised over \$120 million in endowment commitments for Mays Business School, including support for faculty endowments (Eminent Scholar Chairs, Chairs, Professorships, and Fellowships), student scholarships and fellowships, a building addition, and excellence funds and outreach activities for Departments, Programs, and Centers of Excellence. In addition to these commitments, cash gifts for expenditure (non-endowment) purposes totaled \$28 million.
- Restructured operations of the Center for Executive Development, increasing financial performance from revenues of \$880,000 and a net loss of \$22,000 in 2001 to revenues of \$7.2 million and a net profit of \$3.5 million in 2014. Key custom program clients added during this period include AT&T, Baker Hughes, BMC Software, CenterPoint Energy, Halliburton, Honeywell, Houston Methodist Hospital, and KBR.
- Developed visiting executive series (including “Breakfast Briefings” and “Leadership Lunches”) to provide students with opportunities to interact with executives outside of the classroom. Mays hosts approximately 200 visiting executives each year.
- Participated as a member of numerous programs and panels with executives and directors from Administaff (now Insperity); Akin, Gump, Strauss, Hauer, & Feld; BMC Software; Buc-ees; Carriage Services; City of Houston (Mayor); Compass Bank; Continental Airlines (now United Airlines); DRG&E; El Paso Corporation (now Kinder Morgan); Ernst & Young, LLP; First American Bank; Frost Bank; Fulbright & Jaworski, LLP; Gallery Furniture; Greater Houston Partnership; Grey Wolf, Inc.; Gulf Publishing; Halliburton; Harris County, Texas; Hewlett-Packard; *Houston Business Journal*; *Houston Chronicle*; Kirby Corporation; KPMG, LLP; Main Street Capital Partners, LLC; Metals USA Inc.; Nabors Industries; Natco Group; Newfield Exploration; PricewaterhouseCoopers, LLP; Pride International; Quantana Services; Service Corporation, Inc.; Tanox; TEPPCO Partners, L.P.; U.S. Concrete; Waste Management, Inc.; and, Wells Fargo. A number of these programs have been referenced in the print and electronic media.
- Developed an overall communication and media strategy to raise the profile of Mays Business School in both the business and academic communities. Key outputs of this process are *Mays Business Online* (a monthly electronic publication), *Benefactor* (an annual donor recognition publication), *@Mays* (a semi-annual alumni publication), and *Business Research in Action* (a semi-annual publication that features important research conducted by Mays faculty).
- To complement Mays’ traditional advisory board focused on fundraising, created a second advisory board of recent graduates from Mays Business School to accelerate their involvement with our school and facilitate curriculum development and mentoring relationships with current students.
- In partnership with Compass Bank (Houston), initiated the Business Leaders’ Confidence Index, which compiles the opinions of over 700 business leaders throughout the state of Texas as to their expectations for both the Texas and national economies. As part of this effort, I participated in media events in Houston, Austin, Dallas, and San Antonio. The results of this endeavor have been featured in various electronic and print media (Compass Bank has since discontinued this program in Texas).

Internal Resource Generation:

- Through a differential tuition for undergraduate programs (the first of its type at Texas A&M University) and targeted programs fees for the Full-Time MBA and masters programs, generated an addition \$9.5 million in funds used to support the hiring of additional faculty and staff and enhanced program opportunities for students. As one measure of the impact of these funds, in the first year of the implementation of undergraduate differential tuition, Mays offered 93 additional sections of coursework (an increase of 35 percent) and reduced section sizes in our upper division courses from 38 per section to 31 per section.
- Developed a faculty recruitment plan that resulted in an allocation of \$3.4 million dollars of permanent base funding from Texas A&M University for faculty recruitment at Mays Business School from 2003-2007.

Curricular and Other:

- Enhanced the stature and standing of the Mays Full-Time MBA program; rankings of the program reached the following all-time high levels during my tenure as Dean (2001 was the year of my arrival at Mays):
 - *U.S. News & World Report* (Tie 23 U.S. / Tie 7 U.S. public) (ranked 49 / 23 in 2002)
 - *Bloomberg Businessweek* (26 U.S. / 10 U.S. public) (ranked 3rd tier [below 50] in 2002)
 - *Financial Times* (22 U.S. / 6 U.S. public) (ranked 54 / 26 in 2002)

In addition to these holistic program rankings, since 2004, the Mays MBA program has consistently received high rankings for its placement results and various measures of value/return on investment.

- Enhanced the stature and standing of Mays undergraduate programs; rankings of the program reached the following all-time high levels during my tenure as Dean (2001 was the year of my arrival at Mays):
 - *U.S. News & World Report* (Tie 24 U.S. / Tie 14 U.S. public) (ranked 32 / 20 in 2002)
 - *Bloomberg Businessweek* (29 U.S. / 9 U.S. public) (ranked 50 / 19 in 2007 [year of initial ranking])

Upon my departure from the Deanship, Mays was one of only 14 institutions with both Full-Time MBA programs and undergraduate programs ranked in the top 30 by *Bloomberg BusinessWeek* and *U.S. News & World Report*. Of these, seven are public institutions (the other public institutions are University of California, Berkeley; Indiana University; University of Michigan; University of North Carolina; University of Texas at Austin; and University of Virginia).

- Developed a major in Business Honors which enrolls approximately 80 high-achieving freshmen per year; the most recent class had an average SAT (two-part) of 1423. The Business Honors major includes a rich classroom learning environment with dedicated honors coursework along with significant outside of class professional development activities.
- Developed a one-year Master of Business degree targeted to non-business undergraduates as an alternative to an MBA degree requiring work experience. The initial class (which was launched following my departure as Dean) enrolled 52 students from 24 different majors across Texas A&M University.
- Expanded freshman peer-mentoring program from 25 students to over 900 students, through a combination of externally-generated funds and an incremental differential tuition. This program

significantly contributes to Mays having the highest freshman-to-sophomore retention and four-year graduation rates at Texas A&M University.

- Relocated Executive MBA program from The Woodlands, TX to Houston, TX and launched a Professional MBA program, targeting working professionals with 2 - 10 years of work experience. The Executive MBA program continues to enroll a cohort of highly experienced professionals, with average work experience in excess of 15 years. The incremental revenues related to this relocation and launch of the Professional MBA program were \$3.6 million in the initial year of the program.
- Created a post-doctoral research program to provide selected Mays Ph.D. students with an additional year of funding at an increased stipend level, with the primary purpose of developing their research portfolio with their faculty mentor(s), enhance the likelihood of improved placements, and increase the likelihood of success in their initial academic appointment.
- Created a series of non-tenure track ranks for faculty (clinical and executive) along with guidelines to allow for promotions within those ranks.
- Created Research and Teaching Councils comprised of Mays Business School faculty to enhance the research and teaching environments at Mays Business Schools as well as to devise means to proactively encourage and reward research and teaching excellence.
- Created a Dean's Distinguished Lecture series, with the goal of bringing a highly-prominent scholar to Mays Business School to provide a school-wide lecture and interact with faculty and doctoral students. During my tenure, Mays has hosted C.K. Prahalad (University of Michigan), Philip Kotler (Northwestern University), Katherine Schipper (Duke University), Vijay Govindarajan (Dartmouth College), Kathleen Eisenhardt (Stanford University), and Andrew Lo (MIT) in this series.
- Significantly enhanced outreach efforts for Center for New Ventures and Entrepreneurship:
 - Partnered with other Colleges and entities at Texas A&M University (Engineering, Architecture, and Vice-President for Research) to develop Startup Aggieland Business Accelerator.
 - Developed various programs related to entrepreneurship, including Aggies in Business, the "Aggie 100" award and event (which recognizes the fastest growing enterprises owned or managed by Texas A&M alumni), the MBA Venture Challenge, the Raymond Ideas Challenge, and Startup 101 seminars.
 - Participated in the "Entrepreneurship Bootcamp for Veterans with Disabilities" program, in which Mays hosts approximately 25 veterans each year. (Mays is one of 8 business schools that participates in this program).
- Oversaw successful maintenance of accreditation efforts by AACSB-International in 2003, 2007, and 2012.

Interim Executive Vice President and Provost, Texas A&M University (June 2007 to August 2008)

- Based on a response document prepared by the University's Education Environment Council, engaged various constituent groups in discussing Texas A&M University's current standing with respect to the imperatives of Vision 2020 (Texas A&M University's strategic plan) as well as the most urgent and appropriate next action items. This status report and evaluation was the first step in the subsequent preparation of an Academic Master Plan, which was formally initiated by my successor.
- Identified the extent to which Colleges and Schools have implemented recommendations of the Task Force for Enhancing the Undergraduate Experience. After analyzing progress to date, tasked the Dean of Undergraduate Studies to work with undergraduate Deans of the academic units to develop a timetable (along with the necessary resource requirements) for full implementation of these recommendations across all of Texas A&M University's academic units.
- Along with the Vice President for Research Office, coordinated the University response and various activities related to the lab incidents and interactions with Centers for Disease Control (CDC). Some of these activities included assisting with the preparations for the site visit, engaging a biosafety expert as well as a Sarbanes-Oxley expert on a consultative basis to provide recommendations for developing "best practices" controls and documentation practices, and overseeing the preparation of the University's response to the CDC's report as well as the preparation of the University's laboratory registration.
- In response to a Task Force that evaluated the centralization of research administration at the System level, engaged faculty leadership from three important constituencies (Faculty Senate, Council of Principal Investigators, and Distinguished Professors) to inform them of progress on this initiative as well as identify an appropriate vehicle to allow their input to be provided to the Task Force. This group continued to meet bi-weekly to discuss important campus issues and provide an opportunity for dialogue with the Provost's office on a number of important issues.
- Worked with the Division of Finance, interim President of Texas A&M University, and System officials in securing additional funding for the completion of ongoing construction projects (most notably, the Mitchell Physics Building) as well as ensuring alignment of System-wide projects (Texas Institute for Preclinical Studies and Texas Institute for Genomics Medicine) with Texas A&M University's academic priorities.
- Worked with the Dean of Undergraduate Studies to create a series of Freshman Seminars for incoming freshman students. These seminars (a total of 28 in the first year of the program) were limited to 12 students taught by tenure-track faculty and designed to provide a "small school" learning environment to students on a large campus.

Interim Dean, C.T. Bauer College of Business, University of Houston (September 1999 to July 2001)

- Solicited and received \$40 million gift from Charles T. Bauer, co-founder and Chairman of AIM Management Group to rename the College of Business to the C.T. Bauer College of Business.
- Solicited and received cash commitments of \$1.2 million from AIM Management Group and its key executives for the creation of the AIM Center for Investment Management. In addition, \$1.6 million of commitments of in-kind products and services were secured from Cisco Systems, Daktronics, Gensler Architects, IBM, NASDAQ, and Reuters, among others. The AIM Center for Investment Management features an interdisciplinary curriculum targeted toward the financial services industry along with a

student-run mutual fund accountable to actual investors. In 2003, the AIM Management Center classroom was recognized as a “top 11” classroom in the United States by *American College and University*.

- Co-developed a program (the “FastTech 50”) to recognize the fifty fastest growing technology-oriented organizations in the Harris County, Texas area. Along with the Bauer College of Business, other co-founding organizers include the *Houston Business Journal*; Frost Bank; Pannell Kerr Forster, CPAs; Fulbright & Jaworski; and the Houston Technology Center.
- Organized and focused the existing MBA program to serve Houston’s working professionals. In so doing, scheduling of MBA courses was limited to evenings, with on-line and weekend offerings expanded to accommodate working professionals.
- Offered a four-course certificate in e-Business that allows non-current students to receive degree-eligible credit. Twenty-six persons with significant e-Business responsibilities in their current workplace were enrolled in the initial class of this program.

Associate Dean for Academic and Research Programs, College of Business Administration, University of Houston (1995 to 1999)

- Responsible for all College of Business degree programs (undergraduate, masters, and doctoral) as well as faculty research and development programs.
- Supervised re-accreditation process during 1996-1997 by AACSB – International.
- Initiated the development of an Executive MBA program offered off-site in The Woodlands, Texas. This particular program targeted working professionals with approximately five years of professional experience whose undergraduate degree was in business or a business-related discipline.
- Assisted in the creation and development of the Elizabeth D. Rockwell Career Services Center.
- Developed internal faculty workload policies to provide course releases and scheduling flexibility to enhance faculty research productivity. Under these policies, faculty could receive “workload credits” in lieu of research stipends and shift teaching responsibilities across semesters to provide larger blocks of uninterrupted time for research.
- Developed incentive programs to encourage development of on-line course delivery for MBA core courses and interdisciplinary course offerings for MBA electives. Upon my departure from the Bauer College of Business, at least one section of 80 percent of the College’s MBA core courses were offered in an on-line format.

RESEARCH AND PUBLICATIONS

Recognition for body of research:

Identified by Hasselback et al. (*Advances in Accounting*, 2003, pp. 95-125) as one of the top authors in 40 leading accounting journals based on my year of graduation. I was ranked 1st (total articles), 1st (co-author adjusted articles), and 2nd (co-author adjusted articles adjusted for journal quality rankings) out of 171 doctoral students receiving their degrees in 1985.

Identified by Heck (2009, <http://ssrn.com/abstract=1344072>) as 110th among all accounting faculty for publications in 25 core accounting journals from 1959 to 2008 (regardless of year of graduation) (the study identified 10,542 faculty who had published at least one article in these journals; clearly, this is a small subset of the population of accounting faculty during this time period).

Academic Publications:

- "The Pathways Commission on Accounting Higher Education: Charting a National Strategy for the Next Generation of Accountants," *Issues in Accounting Education* (August 2012), pp. 595-600 (with B.K. Behn, W.F. Ezzell, L.A. Murphy, J.D. Rayburn, and M.T. Stith, Invited).
