SOCIAL IMPACT STATEMENT

My research and teaching efforts aim to have a positive social impact. In my research, I seek to understand the influence of personal characteristics of capital market participants on their professional decisions and performance. By doing so, I aim to encourage more responsible and informed decision-making that serves the best interests of both companies and society at large. In my teaching, I emphasize critical thinking and real-world application. I am committed to empowering the next generation with the knowledge and skills needed to improve our profession and society.
